SKILLS

Experience with Javascript,
React, Redux, Node.js, HTML/
CSS, CouchDB

Familiar with SQL, Cypress,
Enzyme, Mocha, Jest,
Typescript, Three.js

EDUCATION

Rensselaer Polytechnic Institute
BSc Computer Science
May 2014

EXPERIENCE

Why Not Smile **2016**

Client projects were created and edited for customers including toooolforschool.us, Edward Leida, Dr. Jart+ Skincare using HTML, CSS, javascript, and PHP. Projects were completed efficiently and in a timely manner to meet deadlines, and were edited to meet clients' needs.

Shodyra **2017-2018**

Freelance work was done for multiple online individuals and organizations primarily using reactJS, node.js and couchDB. Projects included creation of websites, automated bots, and CMSes. Commonly used libraries used for these projects include passport.js, redux, ramda, formik, and styled-components. More than a hundred individual applications were created with a focus on maintainability, performance, usability, and design.

Cloud Elements **2019 - Current**

New features were designed and implemented in the frontend application built to deliver customer value. Individual components were built with typescript then imported into the application via an internal component library. Sprint planning for scrum was done on JIRA, and unit testing and mocking were done primarily with cypress.io, enzyme, and jest. Libraries used to complete these tasks include redux, ramda, styled-components, and formik.

FREELANCE

Twitch.tv Streamers

Destiny.gg llc
<https://fasffy.com/>
<https://novaruu.com/>
<https://kaitlynlive.com/>
Web applications were created for multiple Twitch.tv streamers including websites, chat bots, and customized admin interfaces for updating and editing. Technologies used are reactJS, node.js, couchDB, and AWS S3.

Ashley Masur

<https://delilahs2ndchance.org>
<https://ashleywildcat.com>
Delilah's 2nd Chance is a non-profit 501(c)(3) animal rescue organization. Ashley Wildcat is an alias used for independent modeling work.

Harkness Labs

Various projects were completed for Dan Saltman, a founder of Tinchat, Everyday Carry, and The Hunt. Projects including building a customizable CMS for online video streamers, and a code generator for Everyday Carry.
